What is CSI Summer Learning Program?

The Community School Investigators (CSI) Summer Learning Program is an academic program designed to combat summer learning loss and narrow the opportunity gap by providing five free weeks of quality summer programming in a safe and caring environment.

Every day from 9:00 am - 2:30 pm, children in grades 1-6 take part in numerous activities designed to strengthen their math, reading, and writing skills, along with problem solving and language acquisition. Instructors deliver academic activities in the morning and provide physical activity and cultural experiences in the afternoon. These experiences include field trips, guest artists, sports and recreation activities. To ensure children make the most of the program, they also receive two nutritious meals and a snack each day.
